<b>Date and Time of Death:</b> 09/03/2019 at 16:12	<b>Autopsy:</b> Yes <b>Autopsy Date:</b> 9/4/2019	<b>Toxicology Testing:</b> Yes
<b>Cause of Death:</b> Pending		
<b>Manner of Death:</b> Pending Investigation		
<b>Identified By:</b> Coroner Jerry Overman		
<b>Pronounced Dead By:</b> Coroner Jerry Overman		
<b>Funeral Home:</b> Coston Funeral Home		

<b>Details of the Incident:</b> I know everyone would like to know the cause of death and manner of death immediately but because of the sensitive and circumstances of the case I want all the facts in hand before listing the cause of death and ruling on the manner of death. Unfortunately autopsies and toxicology results take time to complete, approximately six weeks or more, which is frustration for us all. Once the autopsy and toxicology reports are completed and received at the Indiana County Coroner's Office the reports will be reviewed and determined if the results of the autopsy and toxicology can be released depending the investigation status of the Allegheny County Police.  No reports of the cause of death or manner of death has been released by the Indiana County Coroner at this time, again due to not having the results. I heard of several different causes of death over the past couple of days which none of the causes of death have been confirmed or released by Coroner Jerry Overman or will be confirmed or released until all testing and reports are received at the Indiana County Coroner's Office.  Thank you for understanding and have a great day.
